

# Tennant B2 & B4

*The Tennant B2 & B4 are battery powered litter vacuums designed for picking up light debris from large indoor and outdoor areas. They are available in self propelled or push version. The Tennant B2 and B4 have a unique source of electrical power which enables it to outperform similar petrol engine powered machines. A traction motor on B4 gives extended use without operator fatigue and the ability to work on inclines.*

## Features

- Battery powered
- Strong vacuum motor
- Large capacity, flammable retardant bags
- Traction motor (B4)
- Simple commands

## Benefits

- Very quiet, zero emissions and maintenance free
- Suction power, equalling or outperforming similar petrol engined suction, allows optimum cleaning performance
- Extended and safe use in both wet and dry conditions
- No operator fatigue and ease at tackling slopes
- Easy to operate

## Applications

- Warehousing & distribution facilities
- Manufacturing & production facilities
- Small parking areas
- Hospitality areas

Model B2

Simple controls

Vacuum hose

Large capacity

## TECHNICAL SPECIFICATIONS B2 & B4

### Configuration

- B2 and B4 are both battery powered  
The above mentioned configuration includes as standard wet, dry and liner bag, broom and work light.

### Accessories

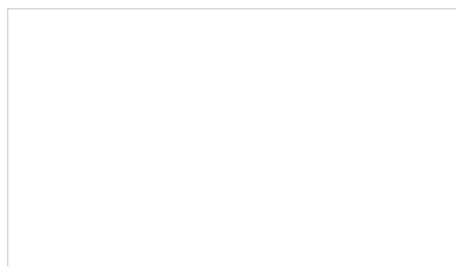

- Batteries • Charger

### Options

- Vacuum hose

### Warranty conditions:

24 Months (or max 2000 running hours) on parts and 12 months (or max 1000 running hours) on labour, whichever comes first, excluding wear items.
